

# ILA Berlin 2026: Executive Business Analytics

B2B MARKET ANALYTICS & CONTRACT VOLUME DATA — JUNE 10, 2026

The opening session of *ILA Berlin 2026* established a formidable trajectory for the global aerospace B2B ecosystem. This quantitative business analytics report breaks down the industrial synergies, multi-million dollar procurement frameworks, and strategic bilateral agreements consolidated on June 10, 2026.

## 1. INTEGRATED AIR DEFENSE & STRATEGIC MILITARY COLLABORATION

### Airbus Defence and Space & Diehl Defence

COOPERATION SIGNED

Executed a comprehensive defense framework specifically aimed at accelerating synergies in Integrated Air and Missile Defence infrastructure across sovereign operations.

### MBDA Deutschland & Ukrainian Armor

STRATEGIC MOU

Concluded a highly strategic Memorandum of Understanding, enabling tactical industrial cooperation and robust technological transfer pathways within regional combat parameters.

### MTU Aero Engines

FCAS INTEGRATION

Formulated an expansive long-term commercial roadmap within the Future Combat Air System (FCAS) program, consolidating prime positioning inside the next-generation fighter landscape.

### Helsing

GOLD PARTNERSHIP

Solidified their market footprint by formalizing an upscale position as a premium Gold Partner of ILA Berlin 2026, driving AI-centric defense architectures.

## 2. ADVANCED AVIONICS & UNMANNED AERIAL SYSTEMS (UAV)

### HENSOLDT & Collins Aerospace

AVIONICS MOU

Executed a bilateral Memorandum of Understanding to co-develop, integrate, and pioneer state-of-the-art next-generation avionics configurations for global fleets.

### Boeing

INDUSTRIAL EXPANSION

Officially scaled and incorporated new strategic German industrial suppliers into the development team of the MQ-28 Ghost Bat collaborative autonomous aircraft.

---

**Rheinmetall, ERC System & State of NRW**

HEAVY UAV CONSORTIUM

Anchored a tri-party alliance with the state of North Rhine-Westphalia to accelerate the engineering and operational validation of the Victor U250 heavy-lift cargo drone.

---

**INTEC Industrie-Technik & Skyeton**

STRATEGIC LOI

Solidified an operational Letter of Intent for manufacturing joint structures, complemented by the scalable deployment capabilities showcased by Quantum Systems.

---

### 3. SOVEREIGN SPACE ASSETS & ENVIRONMENTAL ORBITAL INFRASTRUCTURE

---

**Airbus, ESA & Thales Alenia Space Italy**

PRIME PROCUREMENT

Successfully finalized the landmark Copernicus Sentinel-1 NG procurement contract. Airbus will engineer and manufacture two advanced C-band radar tracking payloads offering millimeter-level climate metrics.

---

**ArianeGroup & German Aerospace Center (DLR)**

RENEWAL EXECUTED

Formally renewed a legacy institutional cooperation agreement to advance propulsion capabilities, space-launch technologies, and collaborative laboratory facilities.

---

**Diehl Defence & Spire Global**

SATELLITE AGREEMENT

Consolidated a joint technology agreement dedicated to orbital monitoring and seamless data integration utilizing global micro-satellite constellations.

---

### 4. ECOLOGICAL TRANSITIONS & GLOBAL AIRSHOW NETWORKS

---

**Clean Aviation, Brandenburg & Saxony**

SOVEREIGN ACCORD

Sealed a regional Memorandum of Cooperation to scale up decarbonized flight research, embedding green industrial infrastructure inside German production hubs.

---

**Marrakech Airshow 2026**

GLOBAL OUTREACH

Initiated international promotional campaigns and high-level stakeholder engagement, expanding their global B2B expo ecosystem from the Berlin platform.
