

ILA Berlin 2026: Executive Business Analytics

B2B MARKET ANALYTICS & CONTRACT VOLUME DATA — JUNE 11, 2026

The second day of **ILA Berlin 2026** accelerated the consolidation of critical aerospace framework agreements, next-generation combat architectures, and defense supply corridors. This quantitative business analytics report breaks down the industrial dynamics and multi-national strategic initiatives established on June 11, 2026.

1. INTEGRATED AIR DEFENSE & NEXT-GEN WEAPON SYSTEMS

Airbus Defence and Space & Alta Ares

MOU EXECUTED

Executed a bilateral Memorandum of Understanding dedicated to the co-development and optimization of next-generation sovereign air defense systems tailored for European airspace requirements.

Diehl Defence & Terma Group

DEVELOPMENT ACCORD

Signed a landmark development cooperation agreement to integrate cross-border defense technologies and streamline future industrial manufacturing frameworks.

MBDA Deutschland & "Team Gen 6"

POSITION PAPER SIGNED

Concluded a highly strategic positioning framework on the Next Generation Weapon System (NGWS), reinforcing multilateral capabilities inside future combat air architectures.

Diehl Defence & SMS (Spain)

STRATEGIC MOU

Solidified a cross-European industrial alliance through a newly executed Memorandum of Understanding to coordinate defense infrastructure and technical engineering synergies.

Elbit Systems Israel & Diehl Defence

STRATEGIC PARTNERSHIP

Formulated an expansive corporate partnership to capitalize on highly advanced military hardware integration and specialized radar tracking solutions.

2. ADVANCED AVIATION, AUTONOMOUS SYSTEMS & IT INTEGRATION

General Atomics Aeronautical Systems & INTEC Group

MOU SIGNED

Executed a comprehensive industrial partnership framework targeting unmanned aerial platforms, payload optimization, and regional maintenance infrastructure.

INTEC Industrie-Technik & GFT Technologies

STRATEGIC ALLIANCE

Announced a dedicated technology and IT integration partnership to deploy scalable software solutions within deep-tech aerospace manufacturing lines.

Skyeton & ONBERG

MOU SIGNED

Anchored a commercial Memorandum of Understanding to co-develop structural configurations and expand operational tactical capabilities for unmanned systems.

3. SUSTAINABILITY PROTOCOLS & TRANSIT TRANSITIONS

NAG-LRN, Airbus & Luchtvaart in Transitie

ENDORSEMENT SIGNED

Successfully finalized a high-level Memorandum of Endorsement aimed at driving structural ecosystem transitions, sustainable aviation fuels research, and green flight pathways.

4. GLOBAL AEROSPACE EXPOSITION NETWORKS

International Paris Air Show 2027

GLOBAL PROMOTION

Initiated institutional promotion, setting the B2B agenda and coordinating industrial participation parameters from the Berlin platform for the upcoming 2027 showcase.

Indo Defence 2027 Expo & Forum

B2B ENGAGEMENT

Deployed bilateral networking protocols and multi-national forum planning to expand industrial defense integration corridors across Asian and European markets.

AIR&SPACESHOWS INTERNATIONAL MAGAZINE (ASIM) — LEADING GLOBAL AEROSPACE MARKET ANALYTICS.
